

## **Randa Accessories Selects NGC Andromeda Cloud Platform for Vendor Compliance and Quality Control**

*NGC solution allows Randa to standardize quality and compliance processes across its 50+ brands worldwide*

**MIAMI—Aug. 8, 2018** — New Generation Computing, Inc. (“NGC”), a leading provider of cloud-based solutions for product lifecycle management (PLM), supply chain management (SCM), quality control and vendor compliance, today announced that Randa Accessories, the world’s largest men’s accessories company, has implemented Andromeda® Quality Control and Vendor Compliance solutions from NGC™.

Randa selected NGC’s cloud-based Andromeda solutions to automate its compliance and quality control processes worldwide and set high standards across its 50+ brands. Randa expects to see immediate benefits from the software, including the ability to identify and correct quality defects early in the production cycle, saving both time and money while maintaining brand integrity.

Randa will also benefit from using the vendor scorecards in Andromeda Vendor Compliance, which will allow Randa to objectively assess and evaluate vendors, with the ultimate goal of offering its customers the best value at the right price.

“NGC Andromeda Quality Control and Vendor Compliance solutions provide an opportunity for Randa Accessories to set standards for both current and future compliance,” said Tim Walter, SVP and CIO, Randa Accessories. “As we grow our product portfolio, expand into new markets and gain increasing brand penetration, it is critical we are a leader in quality and compliance.”

“NGC has met all of our needs,” Walter continued. “They are flexible and adaptable, and their solutions are ideally suited to a factory environment, with the ability to work offline or online. We look forward to growing our partnership with NGC as we continue to prioritize vendor compliance and quality control for our brands.”

“NGC’s Andromeda solutions are helping Randa deliver on its vision of setting new standards for quality and vendor compliance across our industry,” said Mark Burstein, president, NGC. “Product quality and vendor compliance are among the hottest topics in our industry, and NGC is excited that Randa has taken a leadership role in these areas.”
