

Quality Worldwide Selects NGC's Andromeda Cloud Platform to Provide an End-to-End Solution for Its Growing Business

Andromeda PLM[®], Andromeda SCM[®] and other NGC solutions will allow Quality Worldwide to provide better customer service, improve efficiency and increase speed-to-market

MIAMI—Feb. 21, 2019 — New Generation Computing, Inc. (“NGC”), a leading provider of cloud-based solutions for product lifecycle management (PLM), supply chain management (SCM), quality control and vendor compliance, today announced that Quality Worldwide, a full-service apparel design and manufacturing company, is implementing the Andromeda Cloud Platform[®] from NGC Software[®].

Quality Worldwide selected the Andromeda Cloud Platform, including PLM, SCM and Quality Control, as well as NGC's ERP solution, to deliver an even higher level of service and support for its customers, who include many of the retail and fashion industry's best-known brands. Previously, the company relied on a combination of spreadsheets and other applications to manage its business. In order to live up to its name, Quality Worldwide needed to invest in a solution that would support its continued growth and improve operating efficiencies, turnaround time and accuracy.

“Our business is growing rapidly, and we needed an end-to-end solution that would support our global operations and dramatically improve efficiencies,” said Donavon Dartez, VP, operations and business development, Quality Worldwide.

After a thorough review of solution providers, Quality Worldwide selected NGC for its easy-to-use end-to-end solutions. The collaboration tools embedded in the Andromeda PLM were key selling features, as well as the ability to provide real-time updates on any aspect of Quality Worldwide's operations.

“From a manager perspective, one of the top benefits of implementing NGC's solutions are the ability to create a dashboard that lets me see an ongoing, up-to-minute view of how the business is doing, with all the information I need at my fingertips to ensure products are on

time for our customers,” said Dave Williams, VP, production and sourcing, Quality Worldwide. “Our experience with NGC has been wonderful.”

“It’s exciting to help Quality Worldwide transform its rapidly growing business with NGC’s solutions,” said Mark Burstein, president, NGC. “We look forward to working with them to increase speed to market and efficiency.”
