

NGC Andromeda Supply Chain Management

IMPROVE SPEED TO MARKET,
RESPONSIVENESS IN THE SUPPLY CHAIN

NGC's Andromeda Cloud Supply Chain Management (SCM) platform enables the demand-driven, agile supply chain. Andromeda SCM helps all types of companies meet the challenges of a rapidly changing sourcing environment. With NGC's Andromeda SCM, production and logistics information is shared among all members of the extended global supply chain, including retailers, brands, vendors, manufacturers, suppliers, contractors, agents, brokers, carriers and freight forwarders.

NGC's Andromeda platform empowers the connected enterprise allowing companies to broadcast information throughout the enterprise to optimize product lead-time and distribution, maximizing company revenue and profit. Andromeda SCM is user-configurable to meet customer requirements and integrates with all applications across the connected enterprise.

Key Benefits

- **Compress purchasing lead times**
by positioning raw materials for planned production cycles or series.
- **Improve order fulfillment rates**
by balancing production capacity and product demand.
- **Shrink markdowns and closeouts**
by applying "postponement" techniques to adjust WIP inventories.
- **Cut unanticipated airfreight expenses**
by ensuring on time deliveries from global production facilities.
- **Reduce product defects**
by managing on-site quality audits and making corrections based upon the results.

Andromeda SCM at a Glance

LEAD TIME OPTIMIZATION

- Production capacity allocation
- Raw material commitments and drawdowns
- Just-in-Time manufacturing support
- Retail sales performance alerts

VENDOR MANAGEMENT

- Vendor profile and onboarding support
- Document expiry notifications
- Geolocation tools for inspection scheduling
- Performance analysis to support sourcing decisions

PURCHASING

- PO delivery via web with acknowledgement
- Audit trail of all revisions and acceptance
- Work-In-Process updates to track production status
- Management and storage of PO related attachments

QUALITY CONTROL

- In-line, final, measurement and packing accuracy audits
- Auto-generation of Corrective Action Plans upon failure
- Trend analysis by date range, factory, item, material, etc.
- Tablet App for on-site audits

GLOBAL LOGISTICS

- Shipment creation and tracking to final destination
- Labels, inbound paperwork and electronic ASN creation
- ISF creation to ensure 10+2 requirements compliance
- Comparison of actual cost vs. estimated cost variances

WORKFLOW CALENDARS

- Templates with dependencies and critical path support
- Fully integrated into all workflow processes
- Timelines based on durations and target dates
- System-generated "To-Do" list at user or team level

GLOBAL COLLABORATION

- Collaboration on any object within the system
- Severity level and escalation assignment support
- Dashboard to view active or historical discussions
- File attachment to related discussion threads

EXCEPTIONS DASHBOARD

- Real-time alerts of potential problems
- Conditional exceptions defined using if/then statements
- User defined notification alert subscriptions
- Drill-down support to view details of each exception

CUSTOM REPORTING

- Real-time, on-demand reporting views
- Create and share views with other users
- Export report views to Excel, Word and PDF
- Custom report writing with SQL Reporting Services

About NGC

NGC Software is a leading provider of cloud solutions for Supply Chain Management (SCM), Product Lifecycle Management (PLM), Enterprise Resource Planning (ERP), Advanced Quality Management (AQM) and Vendor Compliance (VC). NGC's Andromeda® platform empowers the "Connected Enterprise" by linking retailers and brands with their vendors, factories, suppliers, agents, logistics providers, and other global trading partners into a unified, real-time network.

Trusted by fashion brands and retailers for over 35 years, no other software vendor can match NGC's combination of technology expertise and industry experience. NGC maintains offices throughout the world to implement and support our customers and their international offices. And as a wholly owned subsidiary of American Software, Inc. (NASDAQ:AMSWA), NGC has exceptional financial strength and stability.
